

# The Branford Litter bin

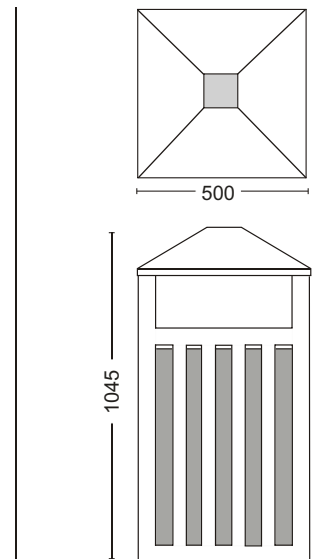

Black cage, Black Hood and Green liner

Stainless Steel Cigarette Stubbing plate

The Branford Litter Bin from JRB is an attractive, durable and aesthetic litter solution for any Town or City. Manufactured from heavy gauge galvanized steel and then powder coated ensures it withstands the harshest of weather year after year. Its quality construction and design along with the heavy duty hinges and lock make the Branford virtually vandal proof.

The inner galvanized liner has a capacity of 105 Litres and its sturdy handles make the task of emptying it quick, clean and easy. Another new and unique feature of the bin is the stainless steel cigarette stubbing plate on the canopy. The Branford is also available in different colors.
