

The Pegasus Litter bin

The Pegasus Litter Bin. Elegance, strength and affordability!

The Pegasus litter bin combines elegance with the durability JRB's products are famous for. It is constructed from heavy gauge steel and then powder coated to provide a quality finish and excellent weather proofing. The bin comes complete with the JRB quick fit post for in the ground installation or can be surface mounted if preferred. Its elegant looks make the Pegasus a perfect fit for any venue and its quality finish will make it a great asset for a long time to come.

The JRB Quick Fit Post makes installation of the Pegasus not only quick and easy but extremely strong. Fittings also include anti vandal nuts and bolts further securing the Pegasus in its chosen location. With a capacity of over 50 liters it will easily cope with most parks and communities everyday waste. The colour dark Green & Black is standard but other colours are available on request.

Specifications:

Capacity: 51 Litres

Dimensions: 750mm x 550mm

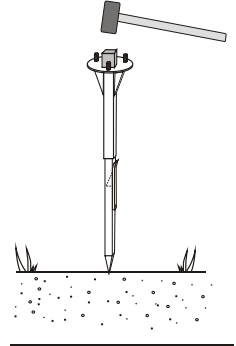

Colour: Black with Green Liner (Other colours by arrangement, minimum quantities apply)

Fixing: Pre-drilled holes for bolting to concrete or use Quick Fix post

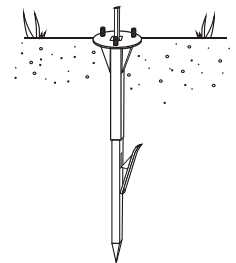

Quick fix post Installation

The Quick fix post is fast and easy to install

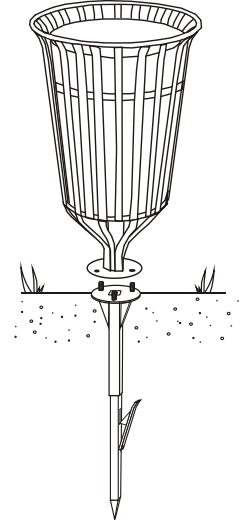

The post is driven into the ground using a sledge hammer (installation cap supplied)

The anchor barb is activated by tapping the rod provided down the centre of the post.

Bin is fixed to post using anti-vandal shearnuts. (Full fixing details are provided with each kit)

The JRB Enterprise Range also includes:

- Dog Waste Bins
- Poop Scoop Dispensers
- Light weight Poop Scoops Plain & Printed
- Custom Designed Signs
